

REMARKS

Drawings

The objection to the drawings is respectfully overcome by amendments thereto. A new Fig. 4 is added to explicitly show the features of claim 8. The first sheet of drawing containing Figs 1-3 is identical to the sheet originally filed and labeled "1/1", except it has been re-labeled "1/2" to reflect the new drawing sheet. No new matter has been added to the drawings. Entry of the drawing amendments and withdrawal of the objection is respectfully requested.

Specification

The objection to the Summary of the Invention is respectfully thought to be overcome by the amendment of paragraph [0007] to concisely summarize the invention.

The lack of support in the specification for claim 2 is cured by cancellation of claim 2. Claims 8-11 are supported by paragraph [0013] as amended, and by new Fig. 4.

Paragraph [0008] has been amended to briefly describe new Fig. 4.

Paragraph [0013] has been amended to specifically refer to new Fig. 4, and the PARTS LIST has been amended to include the reference numerals in Fig. 4.

In view of the changes made, removal of the objections to the Specification is kindly sought.

Allowable Subject Matter

The allowance of claims 1-11 is acknowledged with thanks. Claim 2 has been canceled to place the application in condition for a Notice of Allowance.

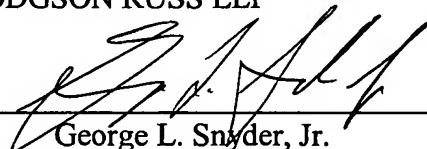

Conclusion

The present application is thought to be in a condition for allowance. Therefore, it is respectfully asked that a timely Notice of Allowance be issued in this application.

Respectfully submitted,

HODGSON RUSS LLP
